

### Summary

Founding partner of Clark/Dixon Architects, September 1987  
With more than 34 years of professional experience with an emphasis on public projects, Ms. Dixon has established an expertise in existing building evaluations and new building compliance with various codes analysis. (i.e. Local codes, State fire codes and Federal ADA codes). Her responsibility has been the design of historic preservation projects, schools and universities, community centers, parks and recreation as well as zoning projects. Her work is characterized by its focus on public places and their sense of place. Also, Ms. Dixon is experienced in design, project construction management and marketing for comprehensive services for Architectural planning and design firm. CDA's strength is in partnering with nationally recognized firms to provide local knowledge and coordination of the rules and regulations for our location specific to the project needs.
